## Keeping all equipment clean

# Hygiene brushes

The DeLaval hygiene brush assortment covers a wide range of brushes to enable hygienic milking. The brushes are made from solid polypropylene blocks, ensuring a smooth hygienic surface, which is easy to keep clean. The bristles are made of robust polyester. The high number of bristles ensure effective cleaning. Wires of stainless steel and bundled bristles create brushes suitable for all purposes. Brushes and handles withstand cleaning water temperatures of up to 121°C. All raw material is compliant to use in contact with food.

## Set of four brushes

Heavy duty brushes specially designed for dairy farmers. Set includes: Pipe brush, Multi brush, Liner brush, Large dish brush and a Brush board in plastic for hygienic storing.

280 x 95 x 145mm

Art. no. 98880100

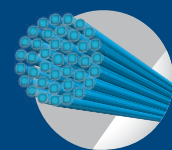

## Handle

For tank brushes

Handle is available in aluminium.

1300mm, Ø22mm, aluminium

Art. no. 98880116

All our brushes have durable polyester bristles with dynamic action for every-day heavy-duty use. They tolerate high temperatures and chemicals at standard concentrations, from pH2 to 10.5. They can be cleaned in a dishwasher or boiled for extra cleanliness. All materials used are safe for food contact.

Some of the products are available in white and/or red colour.
